Job Announcement

Company: Westervelt Ecological Services, LLC
Position: Paid Internships (Summer) – Land Stewardship
Location: Sacramento, California

About us: Westervelt Ecological Services (WES) specializes in the restoration and conservation of wetlands, vernal pools, and other listed species habitats in the form of conservation and mitigation banks that provide environmental mitigation and habitat services to landowners, businesses, government agencies, and land trusts throughout the State of California. Our mission is to provide enduring ecological solutions for the benefit of our stakeholders and the lands we conserve.

Description: The primary purpose of this paid position is to give support to the Westervelt Ecological Services Land Stewardship and Biology Team. Duties would primarily consist of providing assistance in the field with monitoring and maintenance activities at our various Bank and Conservation sites, data analysis, and the production of technical documents and reports.

Qualifications include:

- Basic knowledge of California flora and fauna, and general outdoor skills.
- Well-developed communication and people skills. Ability to effectively work in a team environment with associates and customers.
- Good physical condition and ability to perform under adverse climatic working conditions and difficult terrain.
- Knowledge of Microsoft programs such as Excel, Word, Project, etc.
- Must have a valid driver's license.
- Must be highly motivated.
- Must be available a minimum of 24 hrs/wk.
- Work schedules will be adjusted to the requirements of the activities and projects.
- Applicants must be enrolled for classes for Fall Semester 2018, pursuing a degree in biology, botany, environmental studies, ecology, or related field.

If interested, please apply at www.westervelt.com/careers/internships no later than March 15, 2020

Start Date: May/June, 2020
